Art Unit: 1649

1) Claims 21 to 36 are pending in the instant application.

2) Claims 28 and 36 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. A properly dependent claim can not conceivably be infringed without infringing any of the claims from which it depends. Claims 28 and 36 are improper because they can be infringed by an antibody that is not encompassed by the claims from which they depend. See M.P.E.P. 608.01(n)III.

3) Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 21 to 27 and 29 to 35, drawn to an antibody that binds to a receptor protein, classified in class 530, subclass 388.22.
- II. Claims 28 and 36, drawn to an anti-idiotypic antibody, classified in class 530, subclass 387.2.

The inventions are distinct, each from the other because of the following reasons:

The antibody of Invention I and the antibody of Invention II do not reflect a single inventive concept because they lack a common feature or combination of features that distinguishes them as a group from antibodies of the prior art.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
